7.0 Resolution of Constitution Amendments

7.1 Proposed Motion: International Membership Policy

- a) President raised a significant concern regarding the association's membership policy for foreigners as interest shown by many individuals wanting to join MACB.
- b) Dr Leslie Charles Lai highlighted the potential constitutional risks and policy implications, such as the possibility of foreign members being elected to crucial executive positions like President or Council member, and proposing the ADLM (Association for Diagnostics & Laboratory Medicine) full membership structure as a reference model to address these issues.
- c) Mdm Chew Yee Yean suggested that accepting new foreign applicants as Associate Members would be a simpler, immediate mechanism to encourage participation without granting full executive rights.
- d) President further suggested the need for a rigorous vetting mechanism for all international applicants, requiring applicants to be supported by a referee, national society, or association from their home country.
- e) **Council Response:** The Council noted this matter for further discussion and resolution which will require constitutional review.

7.2 Proposed Motion: Assistant Treasurer Position

- a) The Treasurer, Mdm Chen Bee Chin, raised the need to appoint an Assistant Treasurer from amongst the Council members to assist with the growing financial administration workload.
- b) Dr Leslie Charles Lai commented that the Council must first officially approach the Registrar of Societies (ROS) regarding the creation of any extra executive post, as new positions cannot be created or converted directly during the Annual General Meeting without prior constitutional steps.
- c) **Council Response:** The Council agreed to note the suggestion and address the proper procedure outside of the AGM.
